**Subject:** Action Memorandum for Former Kaiser Smelter Site

Good Afternoon Ken,

Attached is the formal EPA decision document, the Action Memorandum, selecting response actions for the property owned by Spokane Recycling Company at the Former Kaiser Smelter Site. EPA is working on finalizing an Action Memorandum for the Site to address the settling ponds and stormwater management. Once I have that document I will also forward it to you.

EPA and Ecology will be working together on public affairs related to this Action Memorandum and would like to invite both SRC and KAIC to participate. In particular, there is a Spokane River Regional Toxics Task Force meeting on June 24<sup>th</sup> where I believe both EPA and Ecology would like to provide an update to the group on this Action Memorandum and the cleanup plans for this summer. If SRC would like to be involved in public affairs, please let me know and I can put SRC's representative (you or someone else) in touch with the EPA staff working on public affairs.

Additionally, I want you to know that Erika and I are nearly ready to respond to SRC's comments on the draft settlement. I'm waiting to hear back from EPA headquarters on a few of your proposed edits. Once I hear back from headquarters I'll send you an updated redline draft and will look to schedule a time for Erika, you, and I to meet to discuss the draft. Thank you for your patience as we work through this.

Sincerely,  
Kris
